

# Some Americans Over 65 Face a Dental Crisis

As traditional dental work begins to fail, 37 million Americans over the age of 65 will be potential full-arch dental implant candidates by the year 2020. Unfortunately, less than 5% of General Dentists are trained to properly assess and restore their patients' smiles.

## Baby Boomers Over 65 Years Old 2012-2030

## Full-Arch Candidates are Significantly Untreated

**Teeth Tomorrow® Network Members** are positioned to successfully address the over **36 MILLION SENIORS** who would otherwise be without treatment options.
